

# ANGEL VELASCO

[ FULL STACK DEVELOPER ]

Full stack Developer, lover of design and user experience, I love to make designs that attract and inspire people; along with providing useful solutions

## WORK EXPERIENCE

INDEPENDENT 2021 - 2022  
→ Freelancer

GLOBANT 2022 - 2023  
→ Frontend Developer

I used technologies such as javascript, react, vue and testing issues with jest.js. I developed projects that gave me confidence and experience working in development groups, I learned a lot about agile methodologies.

CAMPUSLAND 2023 - 2024  
→ FullStack Developer

I worked in the commercial area, I was in charge of design, user experience, consumption and creation of apis, using tools like react, tailwind, next js, typescript, mysql. I faced many challenges that brought out the best of me.
